Education

Global Academy of Technology

BE in Electronics and Communication Engineering

CGPA: 8.10

Aug 2023 – 2027

Bengaluru, Karnataka

Certifications

- Microsoft Certified: Azure AI Fundamentals [See Credential](#)

Projects

Breast Cancer Histopathology Classification (Deployed ML Application) | *PyTorch, CNN, Google Colab, Scikit-learn, Matplotlib* **2025 – Independent**

Project

- Achieved **87%** accuracy by training a CNN on a dataset containing **50K+** histopathology images.
- Applied **data preprocessing, augmentation, and class balancing** to improve generalization and reduce bias.
- Built a **prediction pipeline** to classify new histopathology images as cancerous or non-cancerous.

Customer Insurance Prediction (Deployed ML Application) | *Python, Scikit-learn, Pandas, Matplotlib, Joblib* **2025 – Independent Project**

- Trained and compared multiple classification models to predict customer insurance purchase decisions.
- Selected the best-performing model based on **Accuracy, F1-Score, and ROC-AUC**.
- Deployed trained models and scaler using serialized **.pkl** files for inference without retraining.

AarambhGann – Trading & Coaching Platform | *Frontend, Backend, Database, n8n Automation* **2025 – Client Project (Completed)**

- Designed and built a **production-ready full-stack platform** for trading coaching registrations.
- Developed a centralized dashboard for **market predictions and analysis**.
- Integrated **WhatsApp API** for lead communication and **Google Maps** for business visibility.
- Automated backend workflows using **n8n** for registrations and data handling.

Skills

Languages: Python, JavaScript, C/C++, HTML, CSS

Trading & Scripting: Pine Script

Frameworks / Libraries: TensorFlow, Keras, PyTorch, Scikit-learn, Flask

Automation & Integration: n8n, REST APIs, Webhooks

Tools: Git

Databases: SQL
