Education

Global Academy of Technology

BE in Electronics and Communication Engineering

CGPA: 8.10

Aug 2023 – 2027

Bengaluru, Karnataka

Certifications

- Microsoft Certified: Azure AI Fundamentals [See Credential](#)

Projects

Breast Cancer Histopathology Classification ([website](#)) | *PyTorch, CNN, Google Colab, Scikit-learn, Matplotlib*
2025 – Independent Project

- Achieved **87%** accuracy by training a CNN on a dataset containing **50K+** histopathology images.
- Performed **data preprocessing, augmentation, and class balancing** to improve model generalization and reduce bias.
- Developed a **prediction pipeline** to classify new histopathology images as cancerous or non-cancerous.

Customer Insurance Prediction ([website](#)) | *Python, Scikit-learn, Pandas, Matplotlib, Joblib*
2025 – Independent Project

- Built multiple ML models (Logistic Regression, KNN, SVM, Decision Tree, Random Forest) to predict insurance purchase decisions.
- Evaluated models using Accuracy, Precision, Recall, F1-Score, and ROC-AUC with decision boundary visualizations.
- Deployed trained models and scaler using serialized `.pkl` files for inference without retraining.

AarambhGann – Trading Coaching Platform | *Frontend, Backend, Database, n8n Automation*
2025 – Client Project (Completed)

- Designed and developed a full-stack website to **register users for trading coaching programs**.
- Built a centralized dashboard for users to **view market predictions and analysis in one place**.
- Integrated **WhatsApp API** for lead communication and **Google Maps** for business location visibility.
- Implemented backend workflows using **n8n** to automate registrations and data handling.

Skills

Languages: Python, PineScript, JavaScript, C++/C, HTML, CSS

Frameworks / Libraries / Tools: TensorFlow, Keras, Scikit-learn, Flask, Git

Databases: SQL
